The noble example of Mr. Penbody has been. followed, though in a different direction, by Mr. Whitworsh, who has presented a sufficient sum to lound thirty scholarships of £100 a year each; for the education of lyonog men who have already distinguished themselves beyond their fellows by industry and preseverence. This will provide a stinguish to humble talent and obscure genius, which will probably lead to noble results. These scholarships are to be applied to the "further instruction of young men, ustives of the United Kingdom, selected by open competition for their intelligence and proficiency in the theory and practice of mechanica and its cognate sciences, with a view to the promotion of engineering and mechanical industry, and with the hope of bringing science and in-dustry in closer relation." The President of the Council for Education will be trustee for the management of the endowment fund; and in an official letter published hints are given of establishing in the great centres of manufacturing industry fit places for scientific instruction in matters, pertaining to productive industry. Hopes are expressed that Mr. Whitworth's neunificent example may, be extensively followed, and a promise of State assistance and co-operation implied. Here is a signal opportunity brought home, as it were, through the doors of the great and wealthy. The return is immediate, and the result certain. Give to the keen brains and determined wills of our most prominent mechanics the advantage of education. and the augmented happiness and prosperity of the nation will assuredly follow.

COMMERCIAL INTELLIGENCE Hongkong, Friday Evening The market for Bengal Drug has been rather quiet today, with only a limited amount of business in progress. The Bears have been attempting to lower the prices in view of the very large quantity of drug that will have to be purchased by them to meet their functial sales, but it is to be hoped that clearances will go on, and no undue pressure he brarght to hear upon the market by holders of drug or buyers on three weeks' time, failing due about the 28th. instant. In Malwa a good amount of business has this day been done, these appears to be symtoms of Native enquiry, and a good many of the dealers have been going round to feel the market. Some sales were effected in the morning at \$657% on cash terms, and subsequently several parcels to the extent of about 100 chests. changed hands at \$655, subject to inspection and approval. The quantity of inferior Drug on sale at present is very large, and is only now and then being taken up by the natives at \$6574 to \$6621, with a small reduction in weight; there is, however, not much disposition on the

part of holders of really first quality to appear in the market, at the law rolling low and rainous prices. It is reported from good quarters that the next supply would also be moderate say 1,000 to 1,200 chests, in which case higher rates might with confidence be looked for. The following may be taken as the closing prices :-New Patna, \$637½ to \$640, and \$6494 to \$645 of the 5th sales to arrive; New Benares, \$623}. to \$625-there has been a great many complaints lately about this Opium, the balls turning out ill-shaped and badly washed, masmuch as \$5 to \$15 a chest allowances are claimed by the Chinese; Malwa, 8660 to \$6621, but even at these rates really good Drug cannot be obtained in any quantity. The patien dealers in the Piece Con is market

T are still buying Woollens, and prices are buginn ning to tend upward. For scarlet Long Ells [\$9.20 has been refused, and a continuation of the present feeling will no doubt establish a r much better range of prices. In Grey Cottons n and Yarn, there is little, if anything doing, the e market being exceedingly quiet. The sales reported to-day embrace 500 pieces scirlet Long" Elleat \$0 00, 120 pieces Camletant \$16.50, and 600 nieces assorted Spanish Stripes at 66 cents. There is nothing to report in Raw Cotton. The Share market is dull-a few Bank bare. been settled at 16 and 24 premium respectively of for old and new, beyond which we hear of no
